

most vulnerable and innocent among us be subject to such cruelty.

It also is a victory for the Constitution, which liberal activist judges have demeaned for far too long. It is encouraging to see the Court's decision move toward our Founders' vision and intent to not only respect opinions and the vision for our country, but also to protect human life.

Let us never forget our responsibility to uphold the basic sanctity of human life granted by our Maker.

DEMOCRATS WORK TO MAKE AMERICAN STREETS SAFER BY PASSING COPS IMPROVEMENT ACT

(Mr. SIREs asked and was given permission to address the House for 1 minute.)

Mr. SIREs. Madam Speaker, our most important job as lawmakers is to ensure the safety of the American people.

Our local law enforcement officers serve communities across this Nation as the first line of defense against crime. The number of police on our streets matters for the security of every city in this Nation, and we have a responsibility to ensure that these officers are in place. That is why Congress worked with President Clinton in the 1990s to create the COPS program.

Through this program, more than 100,000 cops were hired, putting police in every neighborhood in our Nation. But when President Bush came to office, he eliminated the COPS program, with no objections from the old Republican rubber-stamp Congress. As a result, crime substantially increased over the last decade.

Madam Speaker, today this Congress has an opportunity to reverse these troubling trends by passing the COPS Improvement Act. This legislation would allow communities to hire 50,000 police officers over the next 6 years so we can better protect our communities.

DEMOCRATS' ACTIONS SPEAK LOUDER THAN WORDS WHEN IT COMES TO SUPPORTING OUR TROOPS

(Mr. AKIN asked and was given permission to address the House for 1 minute.)

Mr. AKIN. Recently, congressional Democrats cut funding that was planned for modernization of our military. And while we've heard statements that the Democrats are supporting our troops, their actions speak louder than words.

In a strict party-line vote, Democrats slashed the Army modernization program with a 25 percent cut, casting a cloud over the first major modernization program in four decades. Future combat systems are designed to create a real-time battlefield information system. It promises increased safety and efficiency for our troops. This is nothing new. In the 1970s, the Democrats

slashed military spending, and our servicemen and -women were forced to apply for food stamps just to survive. Again, in the 1990s, the Democrat Congress caused our Nation's forces to lose their technological edge. From future combat systems to missile defense, Democrats demonstrate a shortsightedness that will cost our sons and daughters the tools they need for a safe mission. My children and our children will pay the price.

SUPPORTING COPS REAUTHORIZATION ACT

(Mr. PASCRELL asked and was given permission to address the House for 1 minute.)

Mr. PASCRELL. Madam Speaker, today we will vote on H.R. 1700, which calls for putting 50,000 additional police officers on the street over the next 6 years, authorizing \$600 million a year for the COPS program, and it also authorizes \$350 million a year for the COPS technology grants, and \$200 million a year for hiring community prosecutors.

It is fitting today because today is the 26th annual National Peace Officers Memorial Service. Of all the cuts to needed domestic programs the Bush administration has devised over the years, the decimation of funds to our law enforcement personnel has to be among the most ill-considered and reckless. How he could ever stand next to any cop and do what he has done in the last 5 years is reprehensible.

The COPS program is a proven winner, cutting crime and making neighborhoods safer across the Nation. More police on the streets means less violent crimes and greater vigilance. It just makes sense. According to the GAO study, between 1998 and 2000, the COPS grants are responsible for reducing crimes by 225,000.

IS IT TOO COLD OR TOO HOT?

(Mr. POE asked and was given permission to address the House for 1 minute.)

Mr. POE. Madam Speaker, there is alarming news from Newsweek magazine. I read the article in part: "There are ominous signs the Earth's weather patterns have begun to change dramatically and that these changes may cause a drastic decline in food production. The evidence in support of these predictions has now begun to accumulate so fast that meteorologists are hard-pressed to keep up with it . . . The central fact is that after three quarters of a century of extraordinarily mild conditions, the Earth's climate seems to be cooling down . . . If the climate change is as profound as some of the pessimists fear, the resulting famines could be catastrophic . . . The present decline has taken our planet about a sixth of the way toward the Ice Age average."

Madam Speaker, this article was written in Newsweek in April 1975.

Those doomsayers said we were all going to freeze in the dark. Now these are the same people who say we're going to roast because of global warming. Were they correct in 1975 or are they correct today? Before we panic, we need to separate science from junk science and get the facts about global warming.

And that's just the way it is.

DEMOCRATS WORK TO RESTORE COPS PROGRAM SO THAT WE CAN CUT DOWN ON VIOLENCE

(Mr. CARNAHAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARNAHAN. Madam Speaker, in the war to fight crime in this country we need more than just rhetoric. We need results.

During the 1990s, thanks to the initiatives of the Clinton administration and the Democratic Congress, we significantly reduced crime nationwide after enactment of the COPS program. We put 100,000 new cops on our streets, and crime rates fell. But over the past decade, Republicans have cut the program. As a result, crime rates have increased nationwide.

The Police Executive Research Forum recently released a report that found violent crime rates have risen by double-digit percentages over the last 2 years. Among the cities surveyed, 71 percent had an increase in homicides, and 80 percent saw robberies rise.

Today, this House has an opportunity to show it is serious about protecting our neighborhoods by passing the COPS Improvement Act. This legislation will restore the strong anti-crime measures we enacted in the 1990s by providing funding to hire 50,000 new police over the next 6 years.

Madam Speaker, the new Democratic majority isn't just talking about keeping our Nation secure; we are producing real results.

SUPPORTING COPS IMPROVEMENT ACT

(Mrs. CAPPS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. CAPPS. Madam Speaker, I rise also in strong supports of the COPS Improvement Act.

Since the COPS program began in 1994, it has provided for the hiring of 404 police officers in my congressional district. It has directed billions of dollars in grants to law enforcement agencies, including more than \$20 million to benefit my constituents on the central coast of California.

COPS deserves much of the credit for the major drop in crime across our country during the 1990s, but the Bush administration has repeatedly targeted the COPS hiring program for elimination. So I'm glad the new Democratic majority in Congress realizes the
